

## Osnabrück Global Classroom

Due to the challenges the Corona Pandemic imposes on student mobility, Osnabrück University of Applied Sciences has established the Osnabrück Global Classroom as an alternative option for international students from partner universities.

If spending a semester abroad is not possible for you at the moment but if you are interested in studying online in an international and intercultural setting, then sign up for one or more of our online courses. It is not necessary to be present in Osnabrück and you can complement your studies at your home university with the courses you choose here.
